## Provisional Scientific Programme

### Plenary Lectures 1 - 4 (6 December 2010)

#### Plenary Lecture 1 - The Perspectives of Conductive Education in the 21st Century

**Prof. Franz Schaffhauser**, Rector, *András Pető Institute of Conductive Education and College for Conductor Training, Hungary*

Franz Schaffhauser (1951), Professor of Philosophy of Education is Rector of the András Pető Institute of Conductive Education and College for Conductor Training, and Secretary of

the Council of the Doctoral School of Educational Sciences at the Faculty of Education and Psychology of Loránd Eötvös University, Budapest. Practising logotherapist, Chairman of the Hungarian Association for Logotherapy and Existential Analysis.

Teaching activities: Lectures, seminars, workshops, courses and tutoring. Guest lecturer at several universities and teacher training institutions.

Contribution to international academic life, participating in both theoretical and empirical research. Contributor to several international projects e.g. Integer for Curriculum Development, EUMIE Inclusion in Europe.

#### Plenary Lecture 2 - Integrating Chinese Culture with Philosophy of Conductive Education in Rehabilitation for Children with Cerebral Palsy

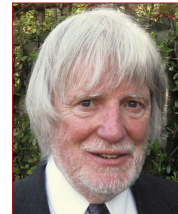

**Prof. Dahong Zhuo**, Professor, Faculty of Rehabilitation Medicine, First Affiliated Hospital, Sun Yat-sen University (SYU), China

Dr. Dahong Zhuo is a professor of rehabilitation medicine at the Sun Yat-sen University (SYU), Guangzhou, China. In his long service as a physician and medical educator, Dr. Zhuo's

major interest has been in medical rehabilitation and health promotion, especially rehabilitation combining western with oriental methods. He is currently a member of WHO Expert Advisory Panel on Rehabilitation, and the Director of WHO Collaborating Centre for Rehabilitation (located at SYU, China). Dr. Zhuo is also a vice president of the Chinese Association of Rehabilitation for People with Disability, and the Editor-in-Chief of the Chinese Journal of Rehabilitation Medicine. He has published numerous textbooks, monographs and scientific articles.

#### Plenary Lecture 3 - Historical, Social and Political Issues of Conductive Education

**Dr. Andrew Sutton**, Trustee, *Conduction, United Kingdom*

Dr. Andrew Sutton's background includes psychology, history, special education, comparative special education, advocating parents' rights, and educational journalism. In the 1980s he collaborated with Mária Hári and others to establish CE outside Hungary, and in the public campaign to bring it to world attention. In the United Kingdom he helped create the Foundation for CE, its National Institute and training course for conductors, and the National Library of CE. Internationally he participated in a number of attempts to internationalise CE, and he published. He retired in 2004. He 'unretired' in 2007.

His concerns now focus upon securing and developing a relevant knowledge base for CE, its momentum for change, its public recognition, its generalisability (including to developing nations) and the promise of Cyberspace. He writes *Conductive World* and has helped create CE Press and the think-tank Conduction. He hopes to retire again very soon.

# Provisional Scientific Programme

## Plenary Lecture 4 - In Search of Excellence: SAHK's Evolution to a Conductive Education Organization

**Mr. Cheung-fat Fong**, Chief Executive Officer, SAHK, Hong Kong

Mr. Fong Cheung-fat got B. Soc. Sci. (Hon.) Degree in Social Work in 1981. In 1993, he completed MA in Information Systems, and in 1994 Diploma in Social Service Management. He joined SAHK in 1986 and was appointed as the Chief Executive Officer in 2005. Mr. Fong

has been active in social work and rehabilitation fields in Hong Kong. He was a Part-time Member of the Central Policy Unit of the HKSAR Government (2006 & 2007) and is now a member of: The Executive Committee of Hong Kong Council of Social Service; The Management Committee of Hong Kong Joint Council for People with Disabilities; Advisory Committee of Social Work Department, The Chinese University of Hong Kong; Departmental Advisory Committee on Rehabilitation Sciences, The Hong Kong Polytechnic University; Hospital Governing Committee, Shatin Hospital, Hong Kong Hospital Authority and etc. He is also an Honorary Council Member of the Guangzhou Volunteers' Union.

## Plenary Lectures 5 - 7 (7 December 2010)

### Plenary Lecture 5 - Neuroplasticity: Implications on Neurorehabilitation

**Prof. Tatia M. C. Lee**, Professor, Department of Psychology, The University of Hong Kong, Hong Kong

Tatia Lee has been working in collaboration with clinicians and scientists to uncover the neural mechanisms underlying those cognitive affective processes that define the human nature of an individual. She has published extensively and in

high impact journals. She is an elected Fellow of the Division of Clinical Neuropsychology and the Society of Clinical Psychology of the American Psychological Association. She is the founding Director of the Institute of Clinical Neuropsychology in Hong Kong, and the Laboratory of Neuropsychology and Laboratory of Cognitive Affective Neuroscience at The University of Hong Kong (HKU). She is currently Professor of Department of Psychology and Honorary Professor of Department of Psychiatry and Department of Medicine of the university.

Because of her contribution to the advancement of knowledge in Neuropsychology, The University of Hong Kong has bestowed upon her an Endowed Professorship in the field of Neuropsychology, the title of which is "May Professorship in Neuropsychology".

### Plenary Lecture 6 - Advances in Neurophysiology and Neuropsychology with Possible Implications for the Conductive Environment

**Prof. Shaul Hochstein**, Professor, Department of Neurobiology, The Hebrew University of Jerusalem, Israel

Shaul Hochstein is Professor at the Hebrew University of Jerusalem, Israel where he is affiliated with the Department of Neurobiology and Interdisciplinary Center for Neural Computation. Dr. Hochstein directs the National Institute

for Psychobiology in Israel and has worked at the Rockefeller University in New York and MIT in Cambridge Massachusetts. His research concentrates on the visual system and issues of neurophysiology, perceptual learning, neural networks, memory and the physiological basis of cognitive phenomena including unconscious and conscious brain processes. Prof. Hochstein is a founding member of Tsad Kadima, the Israel Association for Advancement of Petö Method Conductive Education.

## Plenary Lecture 7 - Evidence-based Practice in Rehabilitation and Its Implications for the Conductive Education World

**Dr. Erzsébet Balogh**, Pediatric Neurologist, Honorary Chairman, International Petö Association, Hungary

- Pediatrician and Neurologist (1967, 1973)
- Pediatric Neurologist (1984)
- Appointed Medical (1986), Research and Medical Director (1997-2005), Head of the Biomedical Department of International Petö Institute (1987-2005)

- Honorary Conductor (1995)
- Honorary Chairman of IPA (2004)
- Senior editor of Conductive Education / Occasional Papers
- Part time professor of the Educational Department to Keele University (Great Britain, 1996-1998)

Teaching activity:

- Neuro-anatomy, - physiology, - pathology, Pediatric Neurology, Comparative CE

Target Groups:

- Trainee Conductors (Hungarian, English, Spanish, Israelis, Russian, Pharsi; Mexicans: University of Cuernacava, US students: Aquinas College, Michigan)
- Medical and Nursery students (Hungarian, Germans)

## Plenary Discussions (7 December 2010)

### Plenary Discussion 1 - The Essence of Conductive Education

Chairman:

**Prof. Daniel H. K. Chow**

Professor, Department of Health Technology & Informatics, The Hong Kong Polytechnic University, Hong Kong

Panelists:

**Dr. Melanie Brown**

Director and Senior Conductor, Adult Rehabilitation & Training Services, National Institute of Conductive Education, United Kingdom

**Ms Limin Cao**

Deputy Managing Director, China Disabled Persons' Federation Social Service Guidance Centre, China

**Dr. Clare Y. K. Cheng**

Rehabilitation Consultant, The Hong Kong Society for Rehabilitation, Hong Kong

**Dr. Rony Schenker**

Professional Director, Tsad Kadima, Israel

**Dr. Ildikó Tass**

Head, Theoretical Department, András Petö Institute, Hungary

**Mrs. Anita Tatlow**

Conductive Education Consultant, Ireland

### Plenary Discussion 2 - Conductive Education in the 21st Century

Chairman:

**Prof. Chetwyn C. H. Chan**

Head and Chair Professor, Department of Rehabilitation Sciences, The Hong Kong Polytechnic University, Hong Kong

Panelists:

**Ms Claire Cotter**

General Manager, Cerebral Palsy Education Centre, Australia

**Dr. Ildikó Kozma**

President, International András Petö Association of Conductive Education, Hungary

**Prof. Franz Schaffhauser**

Rector, András Petö Institute of Conductive Education and College for Conductor Training, Hungary

**Mr. Zhuoping Song**

President, Guangdong Disabled Persons' Federation, China

**Mr. Ivan Y. W. Su**

Corporate Programme Coordinator, SAHK, Hong Kong

**Dr. Andrew Sutton**

Trustee, Conduction, United Kingdom

## Local Sessions (6 & 7 December 2010)

Date	Time	Focus
